

Woodhouse and District Community Forum. Chairman's Report 2008.

Over the past very busy twelve months The Forum has engaged such projects as:-

- Bulb planting all around the Village and in as many areas as possible, with the willing co-operation of the Youth Forum.
- The Library Project, in concentrated negotiations with Sheffield City Council on the proposed Forum new build at the side and the back of the existing library.
- The formulation of a Social Enterprise Company (Woodhouse Social Enterprises Limited) which will hopefully, with your support, be able to sustain the new library building.
- We at the Forum are well on our way to establishing a Broadband network to enable the whole of Woodhouse to access affordable internet broadband.
- We, along with Liz and Jackie our Learning Champions, have set up numerous Adult Education Classes and training courses.
- The Management Board have also undergone training courses.
- A Business Plan has been produced.
- Various summer activities for the children have been organised.
- Funding bids have been applied for.
- We have started a tendering process for the development of our very own Website.

Due to an unfortunate conflict of interest our Company Secretary has had to resign, therefore if there is anybody with the relevant experience and commitment who would be interested in volunteering please don't hesitate to get in touch.
